Dear Mr. Giles:

Re: Board Hearing Results, Request for Board Concurrence, Amount and Form of Replacement Reclamation Sureties, Holnam Incorporated, Poverty Point Limestone Quarry and Devil's Slide Plant & Quarry, M/045/012 and M/029/001, Tooele and Morgan Counties, Utah

On July 26, 1990, the Division requested the Board of Oil, Gas and Mining's concurrence on the amount and form of replacement surety for Holnam Incorporated's (Holnam) Poverty Point Limestone Quarry and Devil's Slide Plant & Quarry. The Board granted a conditional approval to become effective upon final resolution of the following concerns:

1. The Board requested that the operator provide the proper signatures for pages 7 and 8 of the Reclamation Contract, FORM MR-RC. Both pages will have to be re-notarized as well.
2. The Board has asked that the Division's latest revised (May 30, 1990) Reclamation Contract, FORM MR-RC, be completed by Holnam and submitted to replace the original form currently on file. I have attached a copy of your original form for your reference in completing the latest form.

Once these two issues have been resolved, the Division will obtain the Board's signature and then send its final approval of the permit transfers and replacement reclamation sureties for the two projects to you.
